INDEX

AGUIRRE, A. See Squibb, R. L., 625.

ALLISON, J. B. See Miller, S. A., 493.

Altitude and diet, effect on hematopoiesis and serum cholesterol, 433.

Amino acids(s) diets for the chick, studies of, 475.

—— from raw and autoclaved fresh pork, absorption by immature and adult rats, 137.

Aminoethanol (glycine,) and related compounds, nutritional studies in the chick, 13.

ANDERSON, D. L. See Hill, F. W., 587.

ANDERSON, J. See Osborn, M. C., 313.

ANDERSON, L., R. H. COOTS AND J. W. HALLIDAY. A critical examination of *myo*-inositol as an ascorbic acid-sparing agent, 167.

Appetite, relation of saturated, medium- and long-chain triglycerides to, 513.

ARCHER, M. See Jolliffe, N., 355.

Arginine deficiency in chicks, studies on, 271.

Ascorbic acid concentration in tissues as a criterion of ascorbic acid requirement of the guinea pig, 503.

—— and dehydroascorbic acid, effect of the ingestion of on the blood levels of these components in human subjects, 43.

—— requirement of the guinea pig using growth and tissue ascorbic acid concentrations as criteria, 503.

—— sparing agent, a critical examination of *myo*-inositol as, 167.

—— and total ascorbic acid in blood serum, comparative measurements of, 467.

BABAYAN, V. K. See Kaunitz, H., 513.

BARBORIAK, J. J., W. A. KREHL AND G. R. COWGILL. Effects of short-term pantothenic acid deficiency in the growing rat, 251.

BARBORIAK, J. J., W. A. KREHL, G. R. COWGILL AND A. D. WHEDON. Influence of high-fat diets on growth and development of obesity in the albino rat, 241.

BARNES, R. H., AND G. FIALA. Effects of the prevention of coprophagy in the rat. I. Growth studies, 533.

BARON, H. Some effects of DL-methionine and glycocyamine on growth and nitrogen retention in rats, 229.

BARSKY, G. See Kaunitz, H., 513.

BAUER, C. D. See Howard, H. W., 151.

BAUMANN, C. A. See Reynolds, M. S., 99.

BERG, C. P. See Cohen, H. P., 555.

BESSEY, O. A., O. H. LOWRY, E. B. DAVIS AND J. L. DORN. The riboflavin economy of the rat, 185.

BEST, M. M. See Duncan, C. H., 425.

BIERI, J. C., G. M. BRIGGS AND C. J. POLLARD. The acceleration of vitamin E deficiency in the chick by torula yeast, 113.

Biological value, dependence on protein concentration in the diet of the growing rat, 291.

Biotin-deficient rats, incorporation of acetate-2-C^{14} into liver and carcass lipids and cholesterol in, 217.

Birds, mature, effect of dietary protein and fat on changes of serum cholesterol in, 177.

BLOCK, R. J. See Howard, H. W., 151.

Blood plasma, comparative measurements of ascorbic acid and total ascorbic acid in, 467.

—— concentrations of vitamin A, carotene and tocopherols, effects of exercise on, 605.

BOGGS, D. See Maynard, L. A., 85.

BOUCHARD, B. S. See Wertz, A. W., 339.

BRAHAM, J. L. See Squibb, R. L., 625.

BRAZEMORE, A. W. See Ott, W. H., 525.

BRIDGFORTH, E. See Squibb, R. L., 625.

BRIGGS, G. M. See Bieri, J. G., 113; Fox, M. R. S., 475.

BROWN, A. M. See Young, C. M., 203.

CALCIUM intakes in dogs, adaptation to different, 303.

— (nitrogen) and phosphorus balances during stepwise weight reduction in obese young men, 203.

Carotene utilization and cholesterol metabolism as influenced by added choline and vitamin B_{12} to diets containing yeast or a synthetic vitamin mixture, 571.

— (vitamin A and tocopherols), effects of exercise on blood plasma concentrations of, 605.

CARROLL, K. K. Digestibility of individual fatty acids in the rat, 399.

CARROLL, K. K., AND J. F. RICHARDS. Factors affecting digestibility of fatty acids in the rat, 411.

Carbohydrate, influence on the utilization of rations containing soybean alpha protein, 483.

Cat, dietary nitrogen requirement of, 493.

Cesium and potassium, metabolism of in swine as indicated by cesium-134 and potassium-42, 541.

Chick(s), absorption of radiolysine by as affected by penicillin administration, 33.

— acceleration of vitamin E deficiency in by torula yeast, 113.

— exudative diathesis in, 55.

— growing, comparison of metabolizable energy and productive energy determinations with, 587.

— nutritional studies with glycine, aminoethanol and related compounds in, 13.

— studies of amino acid diets for, 475.

— studies on arginine deficiency in, 271.

Cholesterol in blood and tissues of adult pantothenic acid-deficient rats, 313.

— metabolism (Carotene utilization and) as influenced by added choline and vitamin B_{12} to diets containing yeast or a synthetic vitamin mixture, 571.

— serum, effect of altitude and diet on, 433.

— serum, effect of dietary protein and fat and changes of in mature birds, 177.

Choline, influence of on carotene utilization and cholesterol metabolism, when added to diets containing yeast or a synthetic vitamin mixture, 571.
CHOITZ, H. C. See Cohen, H. P., 555.
Coenzyme A content of liver and kidney of the rat, effect of ethionine feeding on, 127.
COHEN, H. P., H. C. CHOITZ AND C. P. BERG. Response of rats to diets high in methionine and related compounds, 555.
COLLINS, M., AND C. A. ELVEHJEM. Ascorbic acid requirement of the guinea pig using growth and tissue ascorbic acid concentrations as criteria, 503.
COOTS, R. H. See Anderson, L., 167.
Coprophagy in the rat, effects of the prevention of. I. Growth studies, 533.
COUCH, J. R. See Creech, B. G., 55.
COWGILL, G. R. See Barboriak, J. J., 241; 251.
CRAVITZ, L. See Rosenthal, H. L., 281.
CREECH, B. C., M. M. RAHMAN, B. L. REID AND J. R. COUCH. Exudative diathesis in chicks, 55.
Cuba, nutrition status survey of the sixth grade school population of, 355.
Cystine, nitrogen balances of women maintained on various levels of, 99.

DAKROURY, A. M. See Gupta, J. D., 259; 447.
DAVIS, E. B. See Bessey, O. A., 185.
DAY, P. L. See Wixom, R. L., 13.
Dehydroascorbic acid (ascorbic acid and), effect of the ingestion of on blood levels in human subjects, 43.
—— human utilization of, 457.
DERBY, M. B. See Wertz, A. W., 339.
DIAZ, F. G. See Jolliffe, N., 355.
DICKIE, M. M. See Lane, P. W., 549.
DICKINSON, A. M. See Ott, W. H., 525.
Diet(s) (altitude and), effect of on hematopoiesis and serum cholesterol, 433.
— high-fat, influence on growth and development of obesity in the albino rat, 241.
— high in methionine and related compounds, response of rats to, 555.
Digestibility of individual fatty acids in the rat, 399.
DODDS, M. L. See Sabry, J. H., 457; 467.
Dogs, adaptation to different calcium intakes in, 303.
DORN, J. L. See Bessey, O. A., 185.
DRAPER, H. H., with the technical assistance of C. LOWE. The absorption of radiolysine by the chick as affected by penicillin administration, 33.
DUNCAN, C. H., AND M. H. BEST, WITH THE TECHNICAL ASSISTANCE OF J. D. WATHEN. Effects of feeding wool-fat sterols on the sterol content of serum and liver of the rat, 425.

EDWARDS, H. M., JR., R. J. YOUNG AND M. B. GILLIS. Studies on arginine deficiency in chicks, 271.
ELVEHJEM, C. A. See Collins, M., 503; Gupta, J. D., 259.
EMPEY, E. L. See Young, C. M., 203.
Energy, metabolizable and productive, determinations with growing chicks, 587.
Ethionine, effect of feeding on liver and kidney coenzyme A content in the rat, 127.
Extraction procedure, rapid, use of in determination of the effect of age, sex and feeding regimen on fat digestibility in individual rats, 625.
Exudative diathesis in chicks, 55.

FAT, dietary, effect of on changes of serum cholesterol in mature birds, 177.
— digestibility in individual rats, effect of age, sex and feeding regimen on, as determined by a rapid extraction procedure, 625.
Fatty acids, digestibility of in the rat, 399.
—— factors affecting digestibility of in the rat, 411.
— liver of portal type: cured by lysine plus tryptophan, 635.
FIALA, G. See Barnes, R. H., 533.
FISHER, K. H. See Sabry, J. H., 457.
FISK, G. See Maynard, L. A., 85.
FOLKERS, K. See Ott, W. H., 525.
Food intake, restricted effect of on the life span of genetically obese mice, 549.
FORBES, R. M., L. VAUGHAN AND M. YOHE. Dependence of biological value on protein concentration in the diet of the growing rat, 291.
FOX, M. R. S., G. M. BRIGGS AND L. O. ORTIZ. Studies of amino acid diets for the chick, 475.

GEIGER, P. See Gram, M. A., 217.
GERSHOFF, S. M., M. A. LEGG AND D. M. HEGSTED. Adaptation to different calcium intakes in dogs, 303.
GREENBERG, S. M. See Herndon, J. F., 615.
GILLIS, M. B. See Edwards, H. M., Jr., 271.
Glycocyamine (DL-methionine and), some effects of on growth and nitrogen retention in rats, 229.
Glycine, aminoethanol and related compounds, nutritional studies in the chick, 291.
GOODHART, R. S. See Jolliffe, N., 355.
GRAM, M. R., AND R. OKEY, WITH THE TECHNICAL ASSISTANCE OF P. GEIGER. Incorporation of acetate-2-C^{14} into liver and carcass lipids and cholesterol in biotin-deficient rats, 217.
Growth as affected by the prevention of coprophagy in the rat, 533.
— appetite, thirst and weight maintenance requirements, relation of saturated, medium- and long-chain triglycerides to, 513.
— and development of obesity in the albino rat, influence of high-fat diets on, 241.
— and nitrogen retention in rats, some effects of DL-methionine and glycocyamine on, 229.
— and tissue ascorbic acid concentrations as criteria in determination of ascorbic acid requirement of the guinea pig, 503.
Guinea pig(s), ascorbic acid requirement of, using growth and tissue ascorbic acid concentrations as criteria, 503.
—— soft tissue calcification in, dietary mineral relationships as a cause of, 85.
GUPTA, J. D., A. M. DAKROURY AND A. E. HARPER. Observations on protein digestion *in vivo*. I. Rate of disappearance of ingested protein from the gastrointestinal tract, 447.
GUPTA, J. D., A. M. DAKROURY, A. E. HARPER AND C. A. ELVEHJEM. Biological availability of lysine, 259.

HALLIDAY, J. W. See Anderson, L., 167.
HALTER, E. See Reynolds, M. S., 99.
HARPER, A. E. See Gupta, J. D., 259; 447.
HEGSTED, D. M. See Gershoff, S. R., 303.
Hematopoiesis, effect of altitude and diet on, 433.
HENDERSON, L. M. See Stevens, C. O., 67.

HERNDON, J. F., E. G. RICE, R. G. TUCKER, E. J. VANLOON AND S. M. GREENBERG. Iron absorption and metabolism. III. The enhancement of iron absorption in rats by D-sorbitol, 615.
HILL, F. W., AND D. L. ANDERSON. Comparison of metabolizable energy and productive energy determinations in growing chicks, 587.
HILLMAN, R. W., AND M. C. ROSNER, WITH THE TECHNICAL ASSISTANCE OF M. E. LEOGRANDE. Effects of exercise on blood (plasma) concentrations of vitamin A, carotene and tocopherols, 605.
HOWARD, H. W., W. J. MONSON, C. D. BAUER AND R. J. BLOCK. The nutritive value of bread flour proteins as affected by practical supplementation with lactalbumin, nonfat milk solids, soybean proteins, wheat gluten and lysine, 151.
Human utilizaton of dehydroascorbic acid, 457.
HUTTON, E. M., G. M. WINDRUM AND C. C. KRATZING. Studies on the toxicity of *Indigofera endecaphylla*. I. Toxicity for rabbits, 321.

INDIGOFERA endecaphylla, toxicity of for rabbits, 321.
Inositol (*myo*-) as an ascorbic acid-sparing agent, 167.
Iron absorption and metabolism. III. The enhancement of iron absorption in rats by D-sorbitol, 615.

JEANS, PHILIP CHARLES (January 3, 1883—October 22, 1952), 1.
JOHNSON, A. M. See Mraz, F. H., 541.
JOHNSON, R. E. See Kaunitz, H., 513.
JOLLIFFE, N., R. S. GOODHART, M. ARCHER, E. LOPEZ AND F. C. DIAZ. Nutrition status survey of the sixth grade school population of Cuba, 355.
JONES, E. M. See Reynolds, M. S., 99.

KAUNITZ, H., C. A. SLANETZ, R. E. JOHNSON, V. K. BABAYAN AND G. BARSKY. Relation of saturated, medium- and long-chain triglycerides to growth, appetite, thirst and weight maintenance requirements, 513.
KOKATNUR, M., N. T. RAND, F. A. KUMMEROW AND H. M. SCOTT. Effect of dietary protein and fat on changes of serum cholesterol in mature birds, 177.
KRATZING, C. C. See Hutton, E. M., 321.
KREHL, W. A. See Barboriak, J. J., 241; 251.
KUMMEROW, F. A. See Kokatnur, M., 177.

LACTALBUMIN, nonfat milk solids, soybean proteins, wheat gluten and lysine, effect of on nutritive value of bread flour proteins, 151.
LANE, P. W., AND M. M. DICKIE. The effect of restricted food intake on the life span of genetically obese mice, 549.
LEGG, M. A. See Gershoff, S. N., 303.
LEOGRANDE, M. E. See Hillman, R. W., 605.
LINKSWILER, H. The effect of the ingestion of ascorbic acid and dehydroascorbic acid upon the blood levels of these two components in human subjects, 43.
Liver and carcass lipids and cholesterol in biotin-deficient rats, incorporation of acetate-2-C^{14} into, 219.
— fatty, of portal type: cured by lysine plus trypotophan, 635.
— (serum and) of the rat, effects of feeding wool-fat sterols on the sterol content of, 425.
LOJKIN, M. E. See Wertz, A. W., 339.
LOPEZ, H. See Jolliffe, N., 355.
LOWE, C. See Draper, H. H., 33.
LOWRY, O. H. See Bessey, O. A., 185.
Lysine, biological availability of, 259.
— effect of on nutritive value of bread flour proteins, 151.
— plus trypotophan, fatty liver of portal type cured by, 635.

MAYFIELD, H. L., AND R. R. ROEHM. Carotene utilization and cholesterol metabolism as influenced by added choline and vitamin B_{12} to diets containing yeast or a synthetic vitamin mixture, 571.
MAYNARD, L. A., D. BOGGS, G. FISK AND D. SEGUIN. Dietary mineral interrelationships as a cause of soft tissue calcification in guinea pigs, 85.
MCTEER, M. See Reynolds, M. S., 99.
Men, young obese, stepwise weight reduction in; nitrogen, calcium and phosphorus balances, 203.
Metabolism of cesium and potassium in swine as indicated by cesium-134 and potassium-42, 541.
— iron absorption and. III. The enhancement of iron absorption in rats by D-sorbitol, 615.
DL-Methionine and glycocyamine, some effects on growth and nitrogen retention in rats, 229.
— nitrogen balances of women maintained on various levels of, 99.
— and related compounds, response of rats to diets high in, 555.
Mice, genetically obese, effect of restricted food intake on the life span of, 549.
MILLER, S. A., AND J. B. ALLISON. The dietary nitrogen requirement of the cat, 493.
Mineral interrelationships (dietary) as a cause of soft tissue calcification in guinea pigs, 85.
MONSON, W. J. See Howard, H. W., 151.
MORGAN, A. F. See Wheeler, P., 137.
MRAZ, F. H., A. M. JOHNSON AND H. PATRICK. Metabolism of cesium and potassium in swine as indicated by cesium-134 and potassium-42, 541.

NITROGEN balances of women maintained on various levels of methionine and cystine, 99.
— calcium and phosphorus balances during stepwise weight reduction in obese young men, 203.
— requirement of the cat, 493.
— retention in rats, some effects of DL-methionine and glycocyamine on, 229.
Nutrition status survey of the sixth grade school population of Cuba, 355.
Nutritional studies with glycine, aminoethanol and related compounds in the chick, 13.
— — with the hyperthyroid rat, 67.
Nutritive value of bread flour proteins as affected by practical supplementation with lactalbumin, nonfat milk solids, soybean proteins, wheat gluten and lysine, 151.

OBESITY in the albino rat, influence of high-fat diets on development of, 241.
OKEY, R. See Gram, M. R., 217.
ORTIZ, L. O. See Fox, M. R. S., 475.
OSBORN, M. O., C. WEAVER AND J. ANDERSON. Cholesterol in blood and tissues of adult pantothenic acid-deficient rats, 313.

OTT, W. H., A. M. DICKINSON, A. VAN IDERSTINE, A. W. BRAZEMORE, A. C. PAGE, JR. AND K. FOLKERS. Studies related to "vitamin B_{12}," 525.

PAGE, A. C., JR. See Ott, W. H., 525.

Pantothenic acid deficiency (short-term), effects of in the growing rat, 251.
— — deficient rats, cholesterol in blood and tissues of, 313.
PATRICK, H. See Mrak, F. H., 541.
PAYNE, I. R. Effect of altitude and diet on hematopoiesis and serum cholesterol, 433.
Penicillin, effect on absorption of radiolysine by the chick, 33.
PERNA, V. P. See Vennart, G. P., 635.
PETERSON, E. W. See Register, U. G., 483.
Phosphorus (nitrogen, calcium and) balances during stepwise weight reduction in obese young men, 203.
PIPKIN, G. E. See Wixom, R. L., 13.
POLLARD, C. J. See Bieri, J. G., 113.
Potassium-42 (cesium-134 and) as indicators of the metabolism of cesium and potassium in swine, 541.
Pregnancy, tryptophan-niacin relationships in, 339.
Protein(s), bread flour, nutritive value of as affected by practical supplementation with lactalbumin, nonfat milk solids, soybean proteins, wheat gluten and lysine, 151.
— concentration in the diet of the growing rat, dependence of biological value on, 291.
— digestion *in vivo*, observations on. I. Rate of disappearance of ingested protein from the gastrointestinal tract, 447.
— dietary, effect of on changes of serum cholesterol in mature birds, 177.
— rate of disappearance from the gastrointestinal tract. Observations on protein digestion *in vivo*. I., 447.
— soybean alpha, influence of carbohydrate on the utilization of rations containing, 483.

RABBITS, normal and starved, organ, urine and feces vitamin B_{12} content of, 281.
— toxicity of *Indigofera endecaphylla* for, 321.
Radiolysine, absorption by the chick as affected by penicillin administration, 33.
RAHMAN, M. M. See Creech, B. C., 55.
RAND, N. T. See Kokatnur, M., 177.
Rat(s), adult pantothenic acid-deficient, cholesterol in blood and tissues of, 313.
— biotin-deficient, incorporation of acetate-2-C^{14} into liver and carcass lipids and cholesterol in, 217.
— digestibility of individual fatty acids in, 399.
— effect of age, sex and feeding regimen on fat digestibility in individual, as determined by a rapid extraction procedure, 625.
— effect of ethionine feeding on liver and kidney coenzyme A content, 127.
— effects of feeding wool-fat sterols on the sterol content of serum and liver of, 425.
— some effects of DL-methionine and glycocyamine on growth and nitrogen retention in, 229.
— effects of the prevention of coprophagy in. I. Growth studies, 533.
— enhancement of iron absorption in by D-sorbitol. Iron absorption and metabolism. III., 615.
— factors affecting digestibility of fatty acids in the, 411.
— growing, dependence of the biological value on protein concentration in the diet of, 291.
— growing, effects of short-term pantothenic acid deficiency in, 251.
— hyperthyroid, nutritional studies with, 67.
— immature and adult, absorption of amino acids from raw and autoclaved fresh pork by, 137.
— response of to diets high in methionine and related compounds, 555.
— riboflavin economy of, 185.
RECANT, L. See Wenneker, A. S., 127.
REDDY, S. See Reynolds, M. S., 99.
REID, B. L. See Creech, B. G., 55.
REGISTER, U. D., AND E. W. PETERSON. The influence of carbohydrate on the utilization of rations containing soybean alpha protein, 483.
REYNOLDS, M. M., D. L. STEEL, E. M. JONES AND C. A. BAUMANN, WITH THE TECHNICAL ASSISTANCE OF E. HALTER, M. MCTEER, S. REDDY, F. SCHMIDT AND G. SKERSKI. Nitrogen balances of women maintained on various levels of methionine and cystine, 99.
Riboflavin economy of the rat, 185.
